## INTRODUCTION:

### A word from our CEO

Welcome to our BisbeeCoin Whitepaper. Today is June 9, 2024 and we have revised our original whitepaper for BisbeeCoin (BCS). Our original plan was to use BisbeeCoin solely for the leisure and recreation industry. However, due to the current economic situation in the USA and frankly throughout the world, we feel that the BCS is needed to help humanity. We, the people in this country are dealing with runaway inflation, higher costs of living and simply having a much harder time making ends meet. Banks and lending institutions are out of control with fees and interest rates, taxes, and fees on everything we do is simply absurd, and it just doesn't stop! We need to protect ourselves and we need to know that the money we earn today can grow for a better tomorrow.

Crypto Currency is part of our live though less than 10% of people know about it or invest in it. Some are scared because it is relatively new and some believe that financial institutions would never hurt them.

Whatever your opinion is, just do your homework, The government loves bad publicity about crypto as they have fought and failed to outlaw it. If it was really a bad thing, then why did the US create it's own digital currency? The question is, why would anyone invest in it when our government cannot control spending, keeps printing money (inflation) and in the long run, only wants to know where every dollar you spend goes and finally wants to get rid of the physical dollar itself? There have been shady companies that have taken people's money in crypto but lets look at where it happened. It happened by people investing in crypto companies/exchanges outside of US jurisdiction. Our government has its faults but there is at least some kind of protection when dealing with US Corporations and exchanges. Banks have gone under, businesses fail, stock markets crash, it is not only Crypto. I cannot say it enough, do your homework.

The good news is BisbeeCoin (BCS) will help humanity. There are hundreds of crypto currencies, and everyone is trying to create something better than Bitcoin. If you follow Crypto, then you know that all crypto rises and falls on what Bitcoin is doing. Bitcoin (BTC) is king. Unfortunately, when Satoshi created BTC he could not predict the future and see the problems that BTC would have. It is to late for BTC to fix itself so it will always deal with manipulation and extreme volatility. BTC's only value is hype which is what drives it. We at BisbeeCoin believe Satoshi *ALMOST* created the perfect Crypto currency, so we did a hard fork of BTC and created BisbeeCoin (BCS). BisbeeCoin uses the same protocols as BTC however, BisbeeCoin holds assets and businesses.

It has a backbone that will protect the value of BisbeeCoin and give us the power to control volatility.

The BCS road map consists of four phases. BisbeeCoin (BCS) will invest twenty cents of every dollar into a business or asset. As the business grows and profits are taken, half of the profits will be used to buy BCS. If an asset is sold, 100% of the profits will be used to either buy BCS or reinvest in another asset. Everything we do is for BisbeeCoin and humanity. One phase which is very special is the ability to end poverty and help people. From food, shelter and medical to education and job placement, we will have the ability to accomplish good things. That is what the Bisbee Team is about!

In the following pages, you will learn about Bisbee's, and a truly exciting new cryptocurrency that opens the door to a whole new world. The BisbeeCoin is value, holds value and will increase in value. The Bisbee Team and I look forward to having you aboard and we look forward to having you become part of the Bisbee family!

And from the darkness came a beacon of light to guide us. Let us all follow this beacon to a better tomorrow.

Yours Truly,

Captain Bob J. Bisbee, Jr.

## THE PROBLEM AND THE SOLUTION:

**Problem:** Crypto currency has the following problems:

- 1) Volatility: Rapid rise and fall of crypto currency value
- 2) lack of KYC (Know your client). Who owns crypto?
- 3) Lack of Transparency and credibility. Who are the founders, staff, and board members?
- 4) Lack of smart regulation and recourse. Many countries have no regulation or very little. No recourse if the crypto company runs off with your money.
- 5) No assets backing a crypto currency. People buy hype and air
- 6) Currently, our world is presented with another problem, the value and future of fiat currency. Our fiat currency (the dollar) is depreciating at a rapid rate and the amount of fiat needed to make a profit or do business is a losing proposition.

**Solution:** BisbeeCoin (BCS) is the solution to our problem and solves every problem listed above.

The BisbeeCoin has been created and forked from the world's **almost** perfect currency "Bitcoin," the BisbeeCoin is the perfect crypto currency. Safe, secure, a store of value and impervious to inflation. BisbeeCoin serves as our vehicle to raise funds, conduct business, and bring the crypto world the first asset/business crypto currency.

BisbeeCoin can be used as a worldwide currency and can be used to purchase almost any goods or services. BCS is a store of value. As our businesses turn profits, and as we sell assets, we will take half of those profits and 100% of asset profits and buy BisbeeCoin with them. The BCS we purchase will be used if needed to control volatility issues. This will also make BCS more stable and valuable.

As we generate profits and gain popularity in the crypto world, BisbeeCoin will only gain value for generations to come. BCS is a currency that is stable with little or no volatility, is inflation proof, protected and backed with assets, and BCS will only increase in value. BCS is the solution to our financial crisis and runaway inflation in this country. Because the dollar is the gold standard in the world, and other currencies throughout the world deal with extreme fluctuations, BisbeeCoin is of great value to the people throughout the world.

There is no lack of transparency with our founders, team, or plan of action in what we are and will be doing. The Bisbee family and our team are trusted and respected and have the knowledge to succeed, as well as a successful track record. We have a solid brand name\* and a technical team which will provide us with safety and speed in our blockchain transactions, as well as security for all our clients. Unlike the most famous crypto today which has a Trillion-and-a-half-dollar market cap, we are real, transparent, and honest about everything we do.

The BisbeeCoin Team also believes in KYC (Know your client) and smart regulation. We are a Wyoming USA business which is owned and operated by US citizens who

believe that not only should our clients be protected, but the Bisbee Team as well. Our entire team will be bonded and insured for everyone's protection.

The BisbeeCoin team has raised the bar which all others will follow.

For those of you outside the US, our team is bi-lingual and can speak many different languages. Our website and app will also be available in multiple languages.

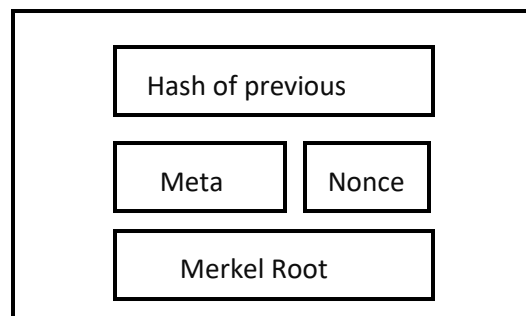

As we navigate our road map and expand, we need to be at the forefront on all the technological advances. The technological world grows and improves every day. What is high-tech today is old technology tomorrow. We have brilliant minds providing us with these safeguards and advancement.

## IS BISBEECOIN SECURE?

Let us put it this way, BisbeeCoin was forked from Bitcoin. Every single protocol implanted in Bitcoin is in BisbeeCoin. Bitcoin is super encrypted and irreversible. Since bitcoins existence in 2009, Bitcoin has not been hacked. It remains secure. The only way to effectively gain control of the network is to own 51% of the total computation power that powers Bitcoin. This is completely unfeasible.

## HOW DOES BISBEECOIN WORK? (The technical side)

For BisbeeCoin to work, we need to verify that all transactions are legit. For this, we have a **proof of work (PoW) system**. If anybody were to try printing extra coins they did not earn, or double spending, the block would be rejected. How are blocks created? A block contains information such as the **hash of the previous block**, the **meta data**, the **Merkel Root** and the **nonce**. How do we get a hash of a block? We can do this by hashing all of the information inside of a block using an algorithm. The hashing will give us a string of random characters such as “778845c333e0e2a1f32cd6c51dff9a50fc6082d5e897c377e713db6fe4776474” We then take the result and hash it again which gives us “4190fb7fa59c709395189ada248b32b021d3d5311e503d612d18cbc4e6fefadc” This algorithm is called **SHA256D**. The “D” at the end stand for double, since we use **SHA256 twice**. Here is what a block looks like.

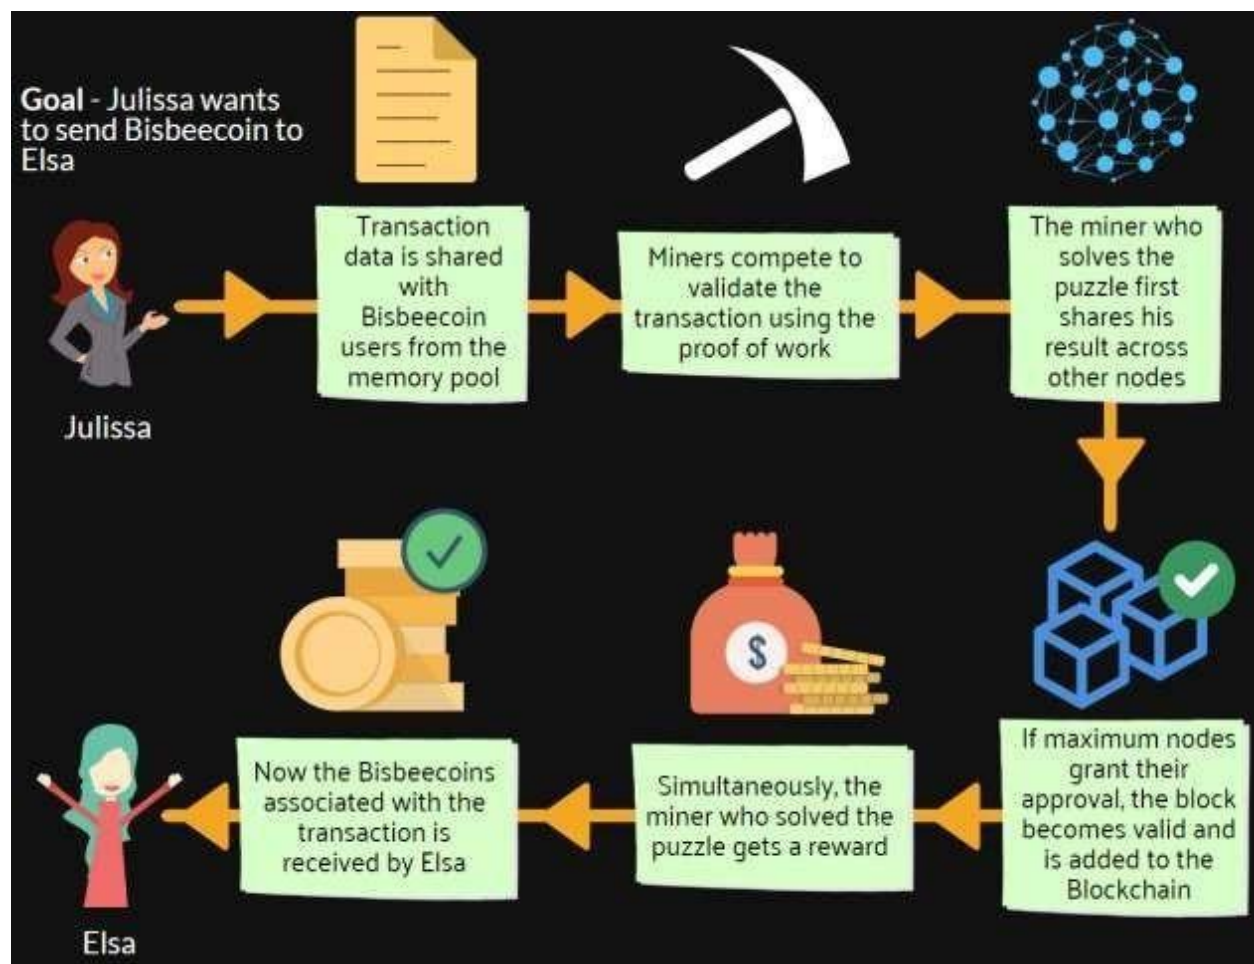

The previous block hash is all of the data hashed together. Let us say we hash our current block with the previous block hash, the meta data and the nonce and we get “00a65cc94724535fd02497d3fc3a6721120af1acaae5f07e54bc64de921b7242.” This will be the hash for our block. The next block will contain this in the previous block hash data.

The Metadata contains the block version number, the timestamp, and the difficulty. The **nonce** is the amount of tries it took to get the correct hash. The **Merkle root** is a hash of all of the transactions in this block.

We use a blockchain for our foundation. Think of the blockchain as a chain of blocks that are organized by the earliest date of creation. The blockchain system depends on **miners** to add blocks to the chain by **doing intense cryptographic calculations**, or mining, to verify a block. The miners look for a certain hash or string of characters that take a lot of calculations to even get.

Think of mining like a puzzle, there are tons of miners trying to solve that puzzle, whoever solves it first, wins. The winner is rewarded BisbeeCoin in exchange for all of the hard work.

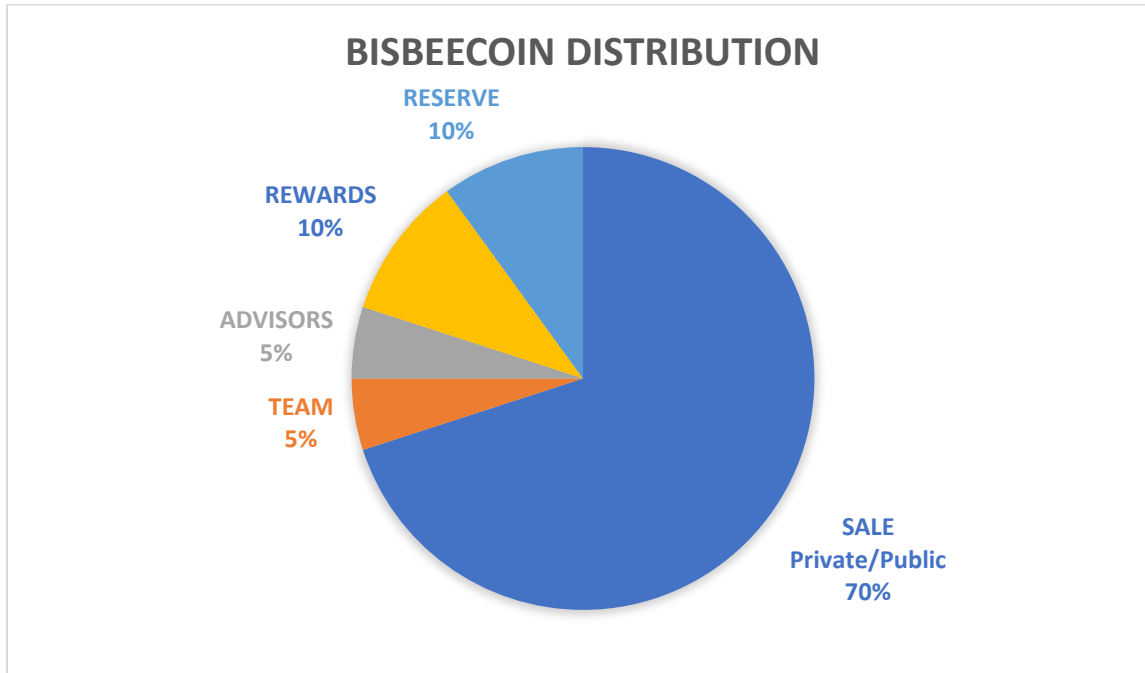

In total there are **21,000,000** BCs.

## BisbeeNomics

A total of twenty-one million BisbeeCoin (BCS) will be minted and distributed among potential BisbeeCoin holders during various processes.

- **Sale – 70%**  
The private and public sale of BisbeeCoin (BCS) will be carried out in different phases.
- **Team – 5%**  
5% of the total BisbeeCoin will be given to team members, including developers, managers, and others.
- **Advisors – 5%**  
The advisors of the BisbeeCoin team will be given 5% of the total BisbeeCoin for their contribution.
- **Rewards – 10%**  
10% of the total BisbeeCoin will be given as an incentive to the participants promoting BisbeeCoin.
- **Reserve – 10%**  
The reserved BisbeeCoin will be used by the company as per the need.

## **WHY INVEST IN BISBEECOIN?**

Let us give you four reasons: Trust, Transparency, Honesty, and Reputation

The Bisbee name is well-known, respected and trusted throughout the marine and sportfishing world. We have worked hard to earn our clients' trust for over 50 years! We are an established brand, and our family business continues to grow and prosper from generation to generation.

We are here today, and we will be here tomorrow and for generations to come. We are not going anywhere.

The BisbeeCoin founder Bob Bisbee, Jr. and his family and staff are the “think outside the box” kind of people who never stop thinking about how to improve what they have, the drive to grow and succeed, as well as strategically plan to stay ahead of the markets and be the leader. The Bisbee Team actually cares about humanity and wants to help people. The Bisbee team never stops working for their family and they certainly will never stop working for you! BisbeeCoin is the crypto for humanity.

**ABOUT THE BISBEE FAMILY** If you do not know the Bisbee's, allow me to share an introduction and our history.

Cabo San Lucas is home to where our world-wide voyage begins. The Bisbee family history spans over 5 decades when Bob Bisbee Sr. came to California and started his family. In 1963 Bob Bisbee, Sr., while working on a Union Oil fuel dock in Marina Del Rey, he joined his friends on a fishing trip to Cabo aboard a private yacht. They departed Newport Beach and five days later arrived at the tip of Baja, Cabo San Lucas. At the time, Cabo was just a little sleepy fishing village. It was quiet and peaceful with friendly people and incredible fishing. That was the beginning that left Bob yearning for more and he could not wait to return! From that point on, Bob returned as often as he could.

In 1973, Bob Sr. started Bisbee's Marine, a Union Oil marine fuel dock, also selling marine hardware and tackle, in Newport Beach, California. Over the years, he built a solid reputable name. Bisbee's Marine quickly became an icon for local boaters and anglers as well as boaters traveling to Cabo San Lucas and Mexico.

Though a workaholic, Bob continued to go to Cabo every chance he could. As Bob expanded his business into tackle and marine hardware, his business flourished and so did his love for that sleepy little fishing village. He began promoting Cabo to his customers and soon sportfishing yachts were making the journey south. Bob installed a single sideband radio in the office where he would track the customers journey, make phone calls to captains' wives, and even contacted the United States Coast Guard when a vessel put out a distress call early one morning. This resulted in saving the lives of the owners and crew who hit a reef and sank. Bob was always there for his customers and always had an invitation to go to Cabo.

Bob saw opportunity and realized that Cabo was a hidden gem that would become one, if not the most popular tourist destination in the world. Bob had a vision, and he had a plan to develop Cabo. Bob was friends with many influential people, not only in the US but in Mexico as well. Bob was offered a contract to develop Cabo harbor and build a marina. In the 70's, the investors he approached said it would never work. That did not stop Bob!

Bob continued to promote Cabo or as he called it "The Cape." Bob became friends with President Miguel Aliman and together decided to build a resort in Cabo. Bob and Miguel owned some beach front property in Cabo next to each other and broke ground on Club De Mecca. A thirty-acre waterfront resort. Not too long into the project Miguel passed away. It was devastating news and unfortunate for Club De Mecca, as Miguel's family had no desire to be in Cabo. The project was dissolved, and Miguel's family sold the property. Bob kept his property and a few years later sold it to a big hotel owner out of Mazatlan.

In the early 1970's Bob took his eldest son Bob Jr., to Cabo and then his other son Wayne, a few years later. The Bisbee boys, just like their father, fell in love with Cabo, the people, and the fishing. Bob Jr. was eleven when he first visited Cabo, and his brother Wayne

was thirteen. The brothers shared the passion of their father and worked on their father's boat, the tournament and when he needed help in Newport. The family told their stories sharing their experiences with anyone who was interested or would listen. Home buyers, developers, sportsmen and families would make the journey, fall in love with Cabo, invest and take their boats and yachts there.

Bob Jr. became a captain at the young age of 15, and by 17 was working for a famous industrialist captaining his yacht. In 1983, Bob Sr. and Bob Jr., along with friends Luis Coppola, a Cabo hotel owner and his nephew, Bill Baffert decided to come up with the idea to have a marlin fishing tournament in Cabo. That is how they created the **Bisbee's Black & Blue Marlin Jackpot Tournament**. The Bisbee B&B grew from a 9k purse in its first year to over a million dollars in 1991. In 1991 Bob Jr., (who was banned from fishing the B&B after winning the first tournament) decided to return to the captains' arena and stepped aside for his younger brother Wayne to take over. A few years later, their sister Tricia joined Wayne and eventually took completely over when Bob Sr. decided to let the kids run with it. Wayne and Tricia have taken the B&B to unbelievable heights and receive nothing but praise and respect from Bob Jr., their mother and millions of spectators and participants from around the world. Today the Bisbee is the richest marlin tournament in the world and has given out over \$100 million USD!! Bob continued to promote Cabo, and Cabo continued to expand.

Excitement, beauty, and adrenaline rush.... These are words describing the world-famous Bisbee's Black & Blue Marlin Jackpot Tournament and the town of Cabo San Lucas, Mexico. What was once a sleepy fishing village, has transformed into a sportfishing and yachting Mecca with beautiful resorts, world class golf, white sandy beaches and the Bisbee family who awards winning anglers millions of dollars every year.

## **WHY CABO?**

Cabo San Lucas ([Cabo San Lucas – Wikipedia](#)) is a region at the southern tip of Baja, Mexico that is a destination for over two million international, high-income visitors each year. It enjoys subtropical desert weather that records average temperatures in the mid 70's year-round. Coupled with its diverse natural attributes and ecological attractions, has made Los Cabos a region that offers enormous potential for leisure-oriented activities and strong development appeal. As a result, the area has attracted the interest of domestic and international investors who have contributed to the robust tourism infrastructure expansion of Los Cabos over the last 25 years. Fueled by rapid growth, Los Cabos evolved from a small village into a premier resort destination that continues to draw an increasing number of visitors from around the world year after year.

Bob Sr. and the Bisbee family are hugely responsible for putting Cabo on the map. Cabo is one of the world's top tourist destinations. Bisbee's continue to promote Cabo and draw people from around the world. Of course the Bisbee name and awarding over 100 million dollars to tournament winners is a huge boost and attraction.

The name “Bisbee” has been a solid, much respected brand in the sportfishing community for over half a century, with a reputation built on quality service and the family’s renowned integrity.

This is the family who brings excitement to the world with world class events and envisions the part that crypto currency will play in all our futures. BitCoin is the recognized leader in the crypto world, there is no denying that. The whole crypto community rises and falls on the value of BitCoin. While BitCoin has no intrinsic value and is driven by participatory value of the BitCoin network, it is quite volatile. We believe that BisbeeCoin will be less volatile because it is a “store of value.” In other words, the BisbeeCoin holds assets and is profit driven through our business plans. It will naturally have a participatory growth just as BitCoin, but because BisbeeCoin is a store of value, we should see much less volatility. (A note for you BitCoin hodlers, we are also devoted believers and hodlers.)

### **THE LEGEND: (Bob Bisbee, Sr.)**

Sadly, Bob Sr. passed away on June 14, 2018. A devastating day for the family, friends, and all who knew and loved Bob. Bob was laid to rest by his family in the waters off the Cabo rocks, his favorite place on earth. Bob’s passing was heard and written about around the world. The outpouring of love and respect from the people of Cabo overwhelmed the Bisbee family. The Bisbee siblings vowed to follow in their father’s steps, and Bob, Wayne, Erik, and Tricia, along with their mom, Aina, are forever the promoters of Bob’s legacy. Wayne and Tricia’s hard work and belief has taken the Bisbee Tournaments to all-time records each year since Bob’s passing and surpassed all expectations. In 2020, when the world shut down due to the Covid 19 pandemic, all three Bisbee tournaments had huge gains in the world’s worst of times! At the time of this writing, 2024 tournaments to date have all set new record highs this year!

Cabo is where it all started for Bob Bisbee and his family and Cabo is the logical choice to begin our voyage with the BisbeeCoin. The yacht LEGEND is named after the Bisbee siblings and mother who have dedicated their life to continue on after the legend himself, Bob Bisbee, Sr.

Our family history and that of Cabo has been talked about here because one, Cabo has been and continues to be a huge part of our life and two, Phase one for BisbeeCoin begins in Cabo.

## **BISBEECOIN Road Map – 4 Phases**

The Bisbee's expansion plan consists of four phases to start.

Today Bisbee's begins a new quest. A quest that takes us into the crypto world as BisbeeCoin begins its ascent to becoming the leading crypto currency for humanity. The four phases are the support platform for BisbeeCoin. Businesses that acquire assets, create profits which will provide a stabilized currency with steady growth and support.

Our vision is one created of experience and knowledge. We are driven by our passion for success, caring for others and the love of sportfishing and a better world. We are humbled by the reception that our peers have given to us for over five decades of marine service excellence. Our dedication, beliefs along with hard work, ethics, and commitment have been instilled in our family and passed on from past generations to our present and now our future generations.

## Phase One:

### **Launch Bisbee's Sportfishing**

***Capital needed: \$10,000,000.00USD Completion time and income producing within 12 months***

Listed below are the steps that will be included in Phase1:

1. Purchase Bisbee's Sportfishing Yacht LEGEND
2. Launch Bisbee's Sportfishing Business
3. Launch Legend Entertainment
4. Create and launch website and Bisbee's *LEGEND* APP
5. Film, edit, produce and publish Bisbee's reality show
6. Create brand apparel and accessories (E Store)
7. Sell sponsorship, advertising and promote BisbeeCoin (public trade shows, fishing tournaments, etc.)
8. Make LEGEND available for charter and begin rewards program for BisbeeCoin holders

Bisbee's "LEGEND"

# BISBEE'S SPORTFISHING PHASE 1

Exclusive  
Bisbee  
Charters

Yacht  
Brokerage

Yacht  
Management

Concierge  
Services

Marine  
Insurance

Bisbee Store

## □ Bisbee's Sportfishing Cabo

Exclusive Bisbee Charters with Captain Bisbee aboard the beautiful 86' sportfishing yacht Bisbee's "LEGEND", the largest sportfisher in Cabo! Other vessels from 40'-120' will be added to the fleet.

Brokerage: Cabo is a boating Mecca with the finest selection of sportfishers and yachts on the West Coast. Bisbee's Sportfishing will offer New, New Build and Preowned vessels for sale.

Bisbee's Yacht Management: Proper management, maintenance, repair and care which covers all areas of owning a boat. With Bisbee's you step aboard, enjoy your time on your boat and step off. It's that easy!

Bisbee's Concierge Services: From planning your trip to Cabo until you return home Bisbee's is there to take care of all your needs. From Airport transportation, private and commercial flights, accommodation needs including private homes, activities, dining and shopping, Bisbee's will handle your every need and desire.

Bisbee's Store: Our Cabo office as well as internet store will have all the latest and most fashionable Bisbee's apparel and memorabilia for sale

## Phase One:

### **Bisbee's Sportfishing cont'd:**

Listed below are the steps that will be included in Phase 1

This part of Bisbee's Sportfishing is to obtain maximum exposure for both Bisbee's and BisbeeCoin.

1. Take show on the road and advertise
2. Bisbee's Sportfishing Team will acquire a large 42 – 52 ft. Center Console fishing boat and custom tow rig custom wrapped displaying our products
3. Travel and compete in fishing multi-million-dollar tournaments on the East Coast, Gulf Coast, West Coast and Buena Vista and Cabo San Lucas, Mexico
4. Attend major sporting and boat shows promoting Bisbee's and BisbeeCoin
5. Promote our blogs, videos and reality show

This concept can be used for the first two years. During this time, we will certainly gain maximum exposure and sell lots of BisbeeCoin.

Profits will be realized from charters, sponsors, royalties/media contracts, E-store merchandise sales and tournament wins. A contract from a syndicated network such as Discovery, History Channel, Netflix, or Amazon Prime can provide a huge return.

*\*Note - Netflix is currently featuring a movie, "Blue Miracle," starring Dennis Quaid. Blue Miracle is about Hurricane Odile which wiped out Cabo in 2014 and destroyed an orphanage. The Bisbee's sponsored a boat and entry fee for the orphanage and stacked against the greatest competing teams in the world, the orphanage boat won the Bisbee.*

## Phase Two:

### **The American Dream.**

***Capital needed: Phase two is a continuous phase which will continue for many years.***

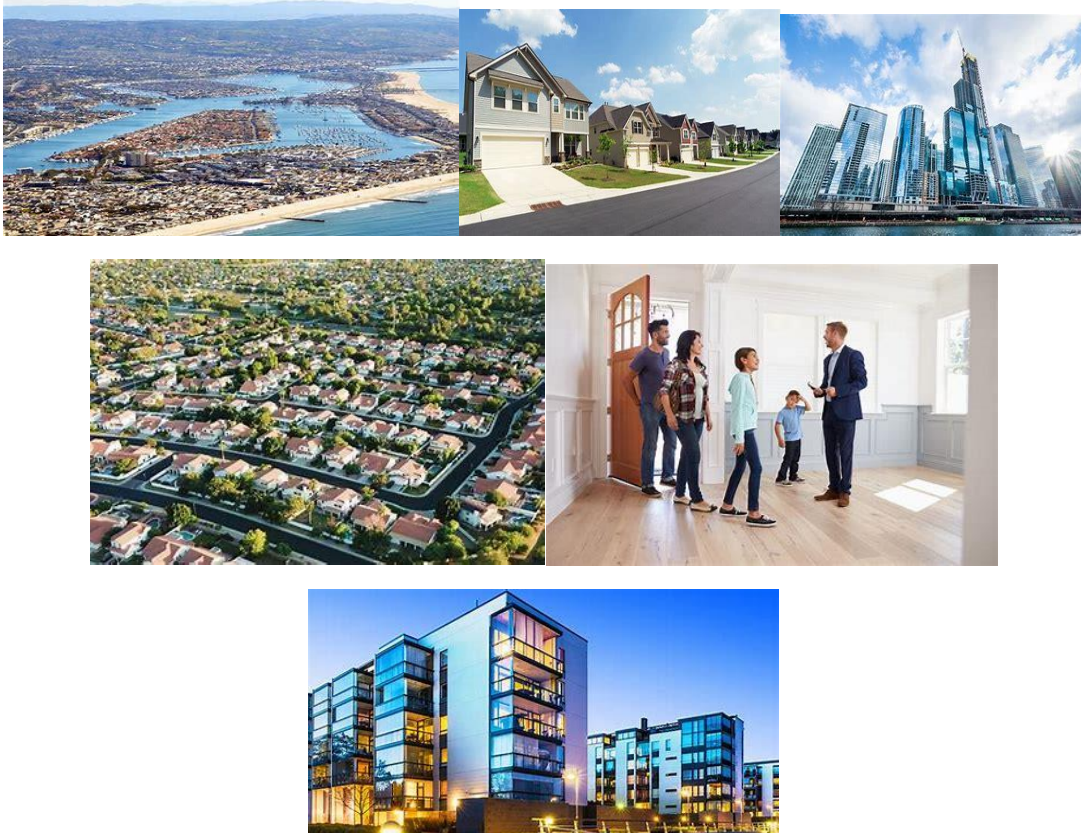

The American Dream project involves residential and commercial real-estate acquisitions and businesses related to this industry.

Real-estate is one of the best methods available in regard to appreciating assets. The goal is not one home or building or one hundred. The goal is to constantly acquire assets that are a good investment with favorable/profitable long-term results.

These assets will not only gain in value over time, but they will also produce monthly rental income.

The BisbeeCoin Team can take the first step to helping people who want the American Dream by offering some of the properties as rent/lease to own.

Businesses within the American Dream phase that generate profits for BisbeeCoin will include everything from maintenance, management, title, and finance.

### Phase Three:

#### **Club De Mecca**

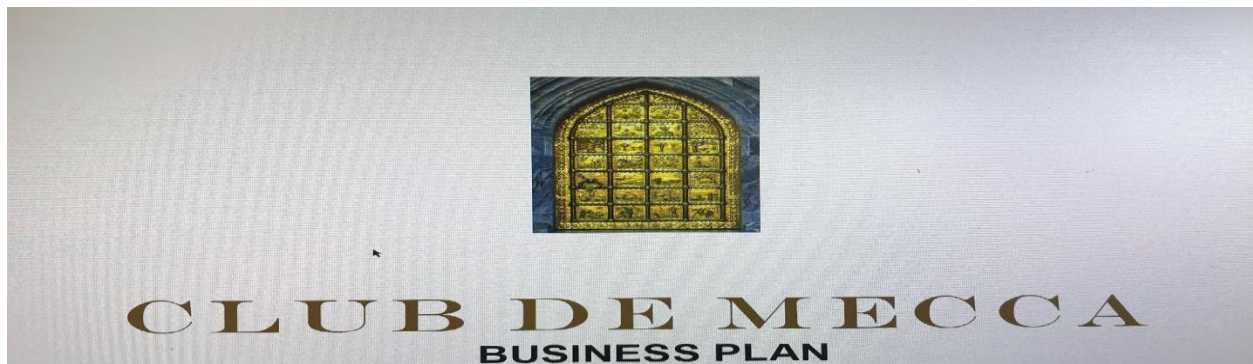

***Capital needed: \$500,000,000.00USD - Completion 24 months. Profitable in 12 months.***

Listed below are the steps that will be included in Phase 4:

1. Build out the ultimate private membership club on the planet, "Bisbee's Club De Mecca," offering the finest amenities, services, and locations. CLUB DE MECCA will offer a vast number of properties and yachts throughout the world.
2. CLUB DE MECCA will provide a world-wide chain of private estates, yachts, and city clubs. This is the ultimate club in the world!

All assets are held by BisbeeCoin and the operations carried out through the Club De Mecca management company. This is a very aggressive plan which offers high returns and solid assets for the BisbeeCoin Portfolio.

*Income is generated from membership sales, commissions from Club De Mecca services and management company. There is also income from phases 1-3*

Big, bold, and exciting. The three ingredients which came to mind when creating Club De Mecca. Club De Mecca will be the club for the elite featuring beautiful estates and yachts around the globe as well as private city clubs in the most desirable locations. From family getaways to having a meeting in a private beautiful setting, Club De Mecca will fulfill our member's needs.

What makes us different from other clubs? That is where big and bold come into play. As other clubs grow with membership sales and hope to grow globally over time, Club De Mecca is different. Club De Mecca will acquire all of the estates, yachts and clubs prior to members joining. It is a big and bold idea but when a member is thinking about spending a million or more on a membership somewhere, we now know where that money will be spent! Wouldn't you rather join a club that is fully functional with a variety of locations ready for your pleasure?

Club De Mecca will also be different because of our approach to satisfying our members quickly Club De Mecca will set the example as to how a club should be operated.

## Phase Four:

### **Operation HELP THE NATION and Medical Miracle**

Operation “Help the Nation” is all about giving back and helping Americans with a hand up not a handout. There are people down on their luck who want to build their way back to a normal life and live the American dream. No matter what the reason, they are stuck and need help moving towards stability and to live a normal life. If a person has the desire, we can help. There are those who belong in institutions and should not be on the streets as they are endangering their own lives and others, these people should be provided help. It is big, it is bold and no one has tried to take on the whole country until now. America is notorious for helping people of all other nations other than our own. BisbeeCoin is American and we believe that once we fix our nations homeless and poverty problems, that we are the united and strong enough to help other nations. However, America first and united we stand.

Operation Help the Nation is not about giving money out. We will approach this problem as a business. Everything we do will have an asset attached and a way for income to be produced. For example, if we build or convert hotels or apartment buildings, the buildings, it's fixtures and land are all assets. If our tenants have government assistance, there is section 8 rental income. Get a roof over people's heads. Businesses will produce income such as employment help, counseling, re-education are all businesses that produce income and help people get on track. If we buy farmland and have housing for employees, educate employees, teach them a trade, and sell product to market, there are assets and income. It will work for any business. We hold the assets; we make an income from investing in people and we help Americas work force and industries. Once people get back on track, we can even assist them when it comes to buying the American Dream, a home with a rent to own program. Once people get a hand up and some guidance, there is nothing more powerful to drive a person forward more than the feel of being worthy and part of something.

For people that are simply lost, on drugs and are mentally unstable, State Institutions can be built with the assets being owned by BisbeeCoin and work with the government and different agencies to fund and operate the facilities.

### **MEDICAL MIRACLES**

The Bisbee Team believes that there are cures for illnesses such as cancer. However, the people who create the cure get bought out by major pharmaceuticals who make billions more prolonging life rather than curing a disease. There will come a point where BisbeeCoin will be powerful enough to compete against big pharma and we will end diseases!

**Introducing the BisbeeCoin Team**

Team BIO's available at [www.BisbeeCoin.com](http://www.BisbeeCoin.com)

## Pay it Forward – Philanthropy

The Bisbee family and its businesses have a long history spanning 50 years of helping others and giving back as a thank you to God for his blessings in life.

Bob Bisbee forged strong ties within the boating community and local Newport Beach, California residents. Bob would do anything to help anyone, and he was extremely well known as a man of his word. As the businesses grew, so did our charitable work. In 1983 Bob Sr. also bought a one-ton cargo van and had a full-length roof rack installed. The donations of clothing and supplies from Bisbee's donation box in Newport was getting to be almost too much to handle! With the new van and permission from the Mexican government, Bob Sr. began driving to Cabo every two weeks with every inch of the van loaded. His customers' boats continued delivering but there was simply too much. Back and forth he went, and as his boys grew, older they began relieving Bob Sr. of his drive.

In 1986, Bob Sr. bought a big Ford F600, thirty-foot trailer and formed a corporation, Drive to Make a Difference. Bob Jr. began hauling loads of supplies throughout Baja to orphanages, senior living homes, and poor towns off the beaten path. Meanwhile, the old van was replaced a few times. As the tournament grew, Bob and his family continued to promote Cabo and help the people there. From the local orphanage, fire trucks, police uniforms to putting a roof over people's heads, the Bisbee's have continued to help to this day.

In 2014 Hurricane Odile hit Cabo dead on, and wiped out the town, resorts, homes.... just about everything. Bob called upon a friend with a plane to see if he could get in. Armed with a satellite phone, a builder and a friend who had a system to create clean water from a simple bucket and hand operated apparatus, he and his group were able to make it into the Cabo airport which also sustained major damage. Once he was able to see just how bad the town was, he got on his sat phone and began getting help.

From the Mexican government to the USA, much needed assistance started pouring in. Huge generator trucks, electrical workers, utility workers, food and water making devices from the USA started arriving within the week. All of this happened one month before Mexico's largest sporting event, the Bisbee's Black & Blue. The Bisbee brings in close to a billion dollars during tournament week. The people of Cabo depend on the tournament to survive. There was no time for the people to be upset and the people tucked their tears away and began rebuilding at an alarming rate!

By registration day for the 2014 Bisbee, there were signs of damage everywhere but amazingly many businesses were up and running and the people worked together to show America and the world what happens when people ban together! There was worry though that the tournament would be canceled because of the damage however, Bob Sr, myself, and brother Wayne got on the phone and internet and started pushing to get the boats down to Cabo. Our anglers and spectators are loyal and when called upon, they came running! The Bisbee's had a anonymous donor who would pay for fifty teams to fish the tournament. If the spectators would charter a local boat, Bisbee's donor would pay

the \$5,000.00 entry fee. Cabo did not want a handout, they wanted to work, and we saw this as an opportunity that would benefit everyone. The end result was a banner year with 2.2 million dollars awarded to winning anglers. The best part of this story.... Amigos De Los Ninos, the local orphanage, was completed just prior to the hurricane, and was destroyed. The winning boat was sponsored by the Bisbee's donor and the winning fish was caught on that boat! The rebuilding of this fine facility would be done at great speed! ([Watch the movie, Blue Miracle on Netflix](#)).

Here are some other ways that the Bisbee's help other communities:

**2012 – Current: Bisbee's Fish and Wildlife Conservation Fund a 501 (c) (3)**

- The Bisbee's Fund engages in animal causes including education, the prevention of extinction of species of animals, the conservation and management of threatened species (both biologically and socio-economically), the assistance of abused animals and advocacy for animal rights.

The Conservation Fund works hand in hand with other conservation groups to advance research. The fund also supports environmental causes and helps teach trades and skills to people in subjects related to the environmental and animal conservation so they can develop marketable skills to earn a living.

- The Bisbee Fund offers a scholarship for twelve students per year for a marine biology program.
- **BISBEE'S iTAG and Offshore Safaris** are revolutionizing fish tagging and help marine biologists, researchers and scientists better estimate migration, behavior, habit utilization and much more!

Please visit [www.Bisbeesconservationfund.org](http://www.Bisbeesconservationfund.org) to learn more.

- **2015 – Current: Feeding Los Cabos Kids:**

Bisbee's has provided over 50,000 meals to kids and their families, children's rehab and feeding centers through neighborhoods in the barrios surrounding Los Cabos. When teams bring in fish to weigh, after the fish is weighed and the pictures are taken, the fish does not go to waste. It is then taken to **Feeding Los Cabos Kids** where it is cleaned, packaged, and then distributed. Nothing goes to waste and God's gift; the fish help people who really need it.

As you can see, the Bisbee family and businesses are very involved in giving back. The Bisbee family employs, helps to feed, clothe, and educate minorities and those who could use a hand up.

Though Bob passed away in June of 2018, and though his passing is heartbreaking to all of us, his legacy continues. The Bisbee family carries the torch for their father and continues on, bound by the ethics and morals their parents have instilled in them. The Bisbee's share their father's love for the people of Cabo as well as people from around the globe. Though the BisbeeCoin is not affiliated with the Bisbee Tournaments, the family who started the tournament and the younger sibling's who continue to run and own it is the same family with the same dedication to carry on the family name. Bisbee's has always built our reputation on trust and integrity and by doing so, the once little tournaments have grown into the largest and richest marlin tournaments in the world with an audience and participants from around the globe.

With all of this said, it is time for the Bisbee's to expand their Bisbee's Marine brand and you can be assured, the Bisbee family will be there to do their part and give back.

A lot has gone on in Bisbee's fifty years. The best is yet to come with your help.

Thank you.

Very Truly Yours,

*Bisbee*

## Conclusion

I hope you have enjoyed your voyage to discovery here on the BisbeeCoin Whitepaper. I admit, it is a different kind of whitepaper, and this is for a reason.

First off, over the years investors have been taken by con artists that nobody knows. Well, that will not happen here. Our team, the Bisbee family and those who are part of our team have been friends for over thirty years and for our youngest team member, since before he was born. We are all known throughout the world, we are on just about every social media outlet there is and have been on many television programs, news articles, magazines and now on the big screen in a major motion picture.

I have given you an in-depth look into our family and our history. Possibly boring to some, but maybe exciting to others. However, the goal is to show we are real people and a working family that really does push above and beyond to do great things.

Secondly, aren't whitepapers for the most part simply boring or so sophisticated that most do not understand them? I read a lot of whitepapers and it is a great way to get put to sleep. The crypto community is not that big. However, it has been growing by leaps and bounds with all the publicity it is getting and as world economies are failing. There are new people looking at crypto everyday and it is not the easiest thing in the world to understand. However, it's not easy to understand how the money in their pockets is all of a sudden worthless too. They have to take a leap of faith to save what little they may have left, and crypto as scary as it may be, is their only hope for a better tomorrow.

So, why not make a whitepaper easier to read and more down to earth? I want people to understand not only crypto, but I want them to know who they are dealing with and to earn their trust. Yes folks, trust is earned, and the Bisbee family has worked very hard for people for over fifty years and earned the trust that has been given to us. That is why the Bisbee family is successful and that is why the BisbeeCoin is truly fascinating and will be a highly sought after crypto.

I must talk about my team. My wife Laura is my anchor and biggest fan. Being Italian, she does not give in easy and sometimes not at all, but she listens, offers her advice and she knows her business. We have Mi'Angel Pata, the young tech genius who just simply amazes me with his creativity, abilities, and amazing mind. Mi' Angel is a man of many talents who can solve problems it seems like with ease. He is constantly looking for ways to improve the things he has created, and he is a creator who is always looking ahead. Then there is the famous Madelynn Jones. Mad is an artist by every definition. Check out her BIO on the website, she has been around the block and played with some very famous musicians! Talent...it just radiates from her. Legend Entertainment will be a huge success with Madelynn at the helm! I have known Madelynn for over thirty years and when it comes to helping others, she is an angel! When Mad told me that we could end poverty I thought about her statement and turned into a believer that we really might be able to achieve this tremendous goal! My right-hand man, Jeremy Anderson comes next. Jeremy is our head of operations for a reason, we want things

done and we want things done right the first time. From his boating and business skills to his history and desire to help others, Jeremy is also in charge of our philanthropy department. Finally, my siblings Wayne and Tricia Bisbee who are on our board of directors. I am such a proud brother! These two are quite the team and do such amazing things when it comes to hosting the largest and richest sportfishing tournament in the world. You will see them on tv, in the news and on the big screen. Hard working, ethical and honorable. They carry the traits that our father instilled in all of us.

As you can see, we have a very special team here at BisbeeCoin. You will see more of our team on our reality shows and can read about them in our blogs when we launch our new App.

As you may see by now, my writing can be a bit long. However, it is with good reason. I do want you all to know us and I do want you to become part of the BisbeeCoin family!

I invite you to ask us if you have any questions. I also want to ask you for the chance to earn your trust and to do great things for you. The crypto world is like the wild west right now. It is known but not known by too many. Is it the time to get involved, I do believe it is. As more people learn about crypto, more people will get into it. Especially if our world leaders keep doing what they are doing by continuing to print money. People want to protect what they have before it is worthless, and we believe BisbeeCoin can do just that!

I want to thank you all for your time and consideration.

Sincerely,

*Bisbee*

## Questions and Answers

**1. Will the BisbeeCoin increase in value?**

Yes. We believe that as our assets, profits and popularity grows, we should see a solid steady growth. We also believe that as fiat currencies collapse, the attraction of a currency that is protected from inflation and unlimited production will also be a contributing factor.

**2. Is the Bisbee Coin useable just like cash?**

Your BisbeeCoin Wallet makes it easy to use and it can also be used to purchase goods and services from other businesses, alt coins and tokens.

**3. Can I invest in BisbeeCoin from my other crypto wallets?** Of course! We accept BitCoin, Ethereum and LiteCoin just to name a few.

**4. Will BisbeeCoin hold assets?**

Yes, BisbeeCoin will hold all the assets of the company. Our boats, real estate, resorts, and every hard asset will be held by BisbeeCoin Corp a division of Bisbee's Marine LLC

**5. What will drive the price of the Bisbee Coin?**

The BisbeeCoin, is a for profit business. Income derived from real estate, yacht sales, media contracts, operation services and management company all generate profits. BisbeeCoin will also gain a strong participatory growth. As we reinvest our profits into BisbeeCoin, and burn the same amount of coins we buy over a four year period, this will drive up the value of your BisbeeCoin. It is all about supply and demand!

**6. How do I buy a Bisbee Coin?**

You can purchase BisbeeCoin at [www.Bisbeecoin.com](http://www.Bisbeecoin.com)

**7. Can I speak to one of your team members if I have questions? Contact information?**

Yes, Our contact information is listed at [www.BisbeeCoin.com](http://www.BisbeeCoin.com)

**8. How can you ensure that the BisbeeCoin will be successful?**

I do not know anyone who can predict the future. We do know that our team has the knowledge, dedication, and expertise to carry out our plans to create, grow and prosper. Our word and commitment is all we can give and just so you know, we spent over 50 years building the Bisbee name on our word.

**9. How does the monthly drawing work? What are my chances of winning a trip on the Legacy yacht?**

Monthly drawings will be conducted each month for our BisbeeCoin holders. The drawing will be done randomly using our system software. It will not matter how many BisbeeCoins you hold or where you are from. There will also be random drawings for Bisbee brand products and events. All done in the same fashion. Your chances are one and however many BisbeeCoin holders there are.
